AN EXTRA SESSION

Talk of One to Dispose of the Reapportionment Bill in Legislature.

The Local Option Bill Reported Without Expression This Morning in the House.

ASSEMBLY ADJOURNS UNTIL MONDAY

Frankfort, Ky., Feb. 21.—The house committee reported the reapportionment bill today. A petition is being circulated for a joint caucus Tuesday night on the re-districting question. The house is said to oppose the proposed re-apportionment, and there is no talk of an extra session to dispose of it.

There were several new house bills today. The legislature has accepted the invitation to attend the Nashville tobacco fair tomorrow. It adjourned today until Monday.

The Harris local option bill was finally reported this morning without expression, and buried beneath bills in order of the day.

The Hyson bill, providing for official publication in newspapers of court decisions and other court news, was considered. The bill is the measure introduced by the Kentucky Press Association.

Senator Hyson made a strong speech favoring the adoption of the bill.

Senator Paryear opposed the bill. He explained his opposition by saying that he was for "the common people rather than the country press," and that he was not a candidate for congress and didn't want to subsidize the press of his district. He said he fought such a measure during the re-constitution days in Arkansas. Senator Carroll also opposed the bill.

Senator Harris spoke earnestly for the bill.

Senator Hyson again took the floor and responded vigorously to the speech of Senator Paryear. He said that Kentucky was not living in the days of reconstruction, but of progress, and pointed out that Ohio, Illinois and other states now have a law similar to the one proposed. He moved to make the bill a special order for next Tuesday. The senate also ordered and then a Journal. Many senators crowded around the senator from Frankfort and congratulated him on his address.

The thirteenth labor bureau passed the house.

The senate committee reported adversely the capitol removal bill, thus ending the removal controversy.

The senate committee reported favorably the bill to place the charitable institutions under a central board.

The senate committee recommended the removal of the Hopkinsville asylum commissioners. It is made a special order for Tuesday.

CASE AFFIRMED.

MAYFIELD WATER COMPANY LOSTS IN THE COURT OF APPEALS.

Frankfort, Ky., Feb. 21.—In the appellate court this morning the judgment of the Graves circuit court in the case of the Graves County Light and Water company against Light, Allen and Co., for \$12,000, was affirmed.

Suits were brought against the company some time since for damages from the resulting from a failure on account of a break down in the furnace during the day. There was a confessed judgment for \$12,000, and it was agreed that certain other suits should go as the court of appeals decided the case. The decision today means that the water company will probably have to pay other large judgments.

In the appellate court the case of Friedman against Janssen, from McCracken, was affirmed. The suit was on plans of a \$1.50 architect for a new brewery that was never built.

TRAGEDY AT HENDERSON. Henderson, Ky., Feb. 21.—At Elbert's factory at noon Henry Davis shot and killed his brother-in-law, Emmet Dixon, aged fourteen. They were negroes, and he claims the shooting was accidental.

Jewell Thomas, the nine-year-old daughter of a well known farmer, was frozen two miles from home, and started from home to the store late yesterday evening.

DAILY THOUGHT.

The age has many problems, but the problem of the age is the young men.

—A World-Wide Movement.

LAST OF SCHLEY CASE.

The decision of President Roosevelt in the Schley case is a dignified, forcible and impartial document, and is a credit to him. There is a total absence of any sentiment in it, and there is not a single point that is not clearly established by the evidence before the court of inquiry. He takes the position first that the court of inquiry did substantial justice in dealing with the facts. The court should have specifically condemned the failure of Admiral Schley to enforce the night blockade at Santiago, although there is doubt as to whether the ships were moved too rapidly or too slowly from port to port. Schley's retrograde movement, when he abandoned the blockade in disobedience of orders, and his misstatements of the facts, are among the most reprehensible of his mistakes. Yet the fact that Schley was not called to account shows that any error that may have been committed was thus condoned.

The President, as all other fair minded men, thinks the court of inquiry might have considered the question of who was in command, and who was entitled to the credit, but it did not. This evidence, although of the greatest importance, and bearing on the case to a considerable degree, was excluded, and Sampson's side of the controversy was not allowed to be presented at all.

The President finds further that when the battle of Santiago opened, the American ships all started towards the Spanish ships in the order outlined in the standing order of Admiral Sampson. Technically, then, at least, Sampson commanded the fleet, and could have ordered it to any place at any time Schley was conducting the battle. The most important fact, it is made plain, was that after the battle was joined, not a helm was shifted, not a gun fired, and not a pound of steam put on in the engine room of any ship actively engaged. In obedience to the orders of either Admiral Sampson or Admiral Schley, except on their own two vessels. So far as the active fighting was concerned, it was a battle of the captains. They did not conduct it according to Schley's orders; then why should he claim the credit of this victory any more than Sampson? Sampson never claimed the credit. He never stirred up the whole country like a piqued school boy, and after a court of inquiry of his own selection had conducted the inquiry, excluded all the evidence that might have been introduced by Sampson and rendered a decision against him, he never went to the President with his troubles.

The President thinks the Brooklyn loop was the gravest mistake of the day, and he ends in his review by declaring that there is no further excuse from either side for a further agitation of the subject. He might have added that there never was, and that the country, the people, the Democratic party and Admiral Schley himself would have been better off if there had been none.

The Schley controversy was a stupid mistake from the first, and a man of intelligence should never have allowed himself to be dragged into it. At the bottom of it all has been one thing—politics. There were many misgivings when President Roosevelt was first asked to review the case and settle it, but his reply has been so lucid, fair, and in accordance with unimpeached facts, that there can no longer be any doubt as to who is entitled to credit for the battle of Santiago.

As The Sun said months ago, it was largely the men who did the fighting, no matter which of the admirals was in command.

THE ATTACK UPON

THE GERMANS.

(St. Louis Globe Democrat.)

Nobody will attempt to indict the entire Democratic party for the ill manners of one of its members, Wheeler, of Kentucky, in his gross insult to Prince Henry and the German element of the American population. It will be noticed, however, that all the bores and dam-

ages are Democrats. One of Missouri's members of congress, a Democrat, of course, made an attack the other day on the administration at Washington for determining to have this country represented at the coronation exercises in England a few months hence, and pretended that the Republican party was trying to subvert Republican ideals in this country.

The particular style of attack adopted by the Kentucky bores is especially common with Democrats. "What do we care about the good will of the German people?" exclaimed Wheeler. "Why should people fall over themselves to see a little Dutchman come over here to take charge of a little ship?" A short time ago when the Globe-Democrat printed out some mistakes that came of the Daughters of the Confederacy hands in their assertion that Missouri favored secession in 1861, one of the Daughters retorted that the anti-secession vote was principally made up of the "Dutch." This is a common epithet as applied to the Germans by persons of the Wheeler order and of the Wheeler party.

Wheeler's violation of good manners has already had some political consequences which he did not foresee, and probably for which he does not care. It stopped the Democrats from all attempts to obstruct the revenue reduction bill in the house this week, and thus let it pass immediately and by a unanimous vote. The leaders of the Democrats in the house feared that in a discussion of the bill some of the Republicans might mention the Kentucky Democrat's clownishness, and thus add to the derision which the vast majority of sane Americans have for the Democratic party of today. It is possible that Wheeler's district will give him another term in congress, for it is overwhelmingly Democratic in politics, but he is a person of whom decent Democrats all over the country ought to be ashamed.

TO SETTLE THE COW QUESTION

The city council of Paducah does not seem disposed to wrestle with the Town Cow question. The last heard of a request to enact the necessary measures to protect yards and flowers was when it was referred. It is still "referred." It appears that every time the cow question comes up in the council, a few cow owners hasten to the councilmen and begin whining about being poor and having to keep a cow. They soon delude the councilman, who is usually a very sympathetic, as well as unsophisticated man, into believing that every one of his constituents owns a cow, and that to vote to keep cows up will be to vote to take bread and butter out of the mouths of the widow and orphan.

These cow owners are simply working the sympathy racket. They only want to keep up their uncivilized practice of turning their cows loose to prey on the public, make the city look like a village, devastate yards and make themselves otherwise disagreeable. People who can afford to feed a cow are well enough off to buy milk and butter instead. But even if they were not, it would not make it right for them to keep something that has for the past several years been a nuisance and a detriment to the general public.

If the city council hasn't enough backbone to tackle the cow question, it should do like the council at Union City, Tenn. The members, in order to get out of the vexed question, have called a primary for March 1st to determine by vote the will of the people on the cow question. If the majority favors the present law, which prevents cows running at large, the law will stand. If not, it will be repealed by the council, and cows again be permitted to run at large.

DEMOCRATIC EXTRAVAGANCE.

The state legislature is trying to increase the tax rate. Its only plea, or that of the Democratic organs that are trying to condone it, is that it has to increase the rate to raise money enough to pay off debts contracted through Republican extravagance. This is sheer mendacity. When Governor Bradley went out of office he left about \$300,000, and when Governor Taylor went out he left \$350,000. The Democrats have since appropriated \$100,000 as a reward fund to persecute their political enemies, and have given other unmistakable evidences of having money to burn. If the Republicans left the state in such a fix as the Democrats profess to believe they did, it is all the more reason why such extravagance as appropriating \$100,000 for a reward fund, and placing every institution and fund to the state in charge of an overpaid commission, no doubt to be composed of politicians who are in favor with the gag, should have been passed up by the Democrats. Instead, they have been doing nothing but wasting money and planning to waste more money, ever since they went into office. The present effort to increase the tax rate is simply to get more money to squander. If it is necessary, it was made so by their own extravagance, not by the extravagance of the Republicans. And the indications are that the systematic robbery that characterized other Democratic administrations was nothing to that which is coming. Let the people of Kentucky look at the increase in tax rates that is proposed to be made by the men now in the legislature, demand to know why, and if they find out, their eyes will be opened to a most glaring attempt of the Frankfort gang to loot the treasury.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons.

FOUGHT ON STREET.

WILL JOEY SERIOUSLY SHOT LAST NIGHT BY FRANK RUCKNER.

Frank Ruckner, alias Bookley, and Will Joey, colored, engaged in a difficulty last night about 6:30 o'clock at Ninth and Washington streets and Joey was shot in the right groin and leg twice by the other.

The wounded man informed the police that he and Bookley and two others were engaged in a crap game, and he was losing steadily when he discovered that the others were using "loaded" dice on him.

He offered and seized the money declaring that he would not be robbed, and they followed him to the street, where Bookley demanded the return of the money, at the same time beginning to shoot.

Joey fell and Ruckner escaped. The victim came near dying from loss of blood before Dr. Robertson arrived.

GOLDEN CONVOCAATION.

Olaclanet, O., Feb. 21.—Over 1,600 prominent Masons have registered here at the Scottish Rite Cathedral up to today for the golden convocation of the rite of the Valley of Cincinnati which was established in this city fifty years ago. While prominent Masons attend this convocation yearly there never was such an attendance as this week.

Among those present is Dr. J. Dias Prieto of Mexico. The thirty-third and thirty-second degree men are present from all parts of the country. The program covers four days and includes excellent music and all the pomp and ceremony of the best ritualistic work.

PARALYSIS STRIKES

JUSTICE GRAY.

Washington, Feb. 21.—Justice Horace Gray of the supreme court has suffered an attack of paralysis, but it is stated that there is every reason to expect his recovery. The attack occurred Tuesday night. His mind is clear, but he has lost the muscular control of a part of his body. Justice Gray has been married for some time, and his advanced age, seventy-four years, gave rise to some apprehension as to the outcome, although his family says the attack is not serious.

EGGS HIGHEST IN

TWELVE YEARS.

Chicago, Feb. 21.—Eggs are being brought to Chicago from California to supply local demands. Prices have reached 33 1/2 cents, the highest since 1899, when they sold at 35 cents a dozen. There were 3,000 cases in yesterday, but this was less than 50 percent of the receipts for the same day last year. Dealers in discussing high prices told about sales being made for a number of days in 1913 at 30 cents a dozen. A snow storm then blocked the railroads and checked receipts.

CAUGHT AT KNOXVILLE.

Knoxville, Tenn., Feb. 21.—Charles M. Drye, for whose arrest Governor Beckham of Kentucky offered a reward of \$200, was arrested here this morning. Drye is said to have been one of the men in Turner's quarter house fight, near Middleboro last Wednesday, but he claims he had nothing to do with it. He admits he conducted a restaurant in the lot near the quarter house, but states when he saw the officer's posse coming he ran over the hills. Drye is a negro.

SHOT A GRAY EAGLE.

Hickman, Ky., Feb. 21.—Dr. Hugh E. Prather of Hickman brought into town a gray eagle. Dr. Prather was making a professional call a few miles above town on the Mississippi river, and saw the eagle perched in the top of a large tree. It required but one shot to bring the eagle to the ground. He brought his game to town and, measuring it, found him to be seven feet from top to tip.

THE STONE QUESTION.

Washington, D. C., Feb. 21.—The state department's advice concerning Miss Stone indicates that the Paris publication to the effect that she has been set at liberty is to say the least premature. It is thought, however, that the woman is likely to be released soon, and that the delay is explained by the requirement of the brigades that they be given ample opportunity to insure their own safety.

ELECTED ITS OFFICERS.

The Mechanics' Building and Loan Association last night elected directors for the ensuing year as follows: E. G. Boone, Judge Bethshures, John Rock, W. A. Gardner and F. M. Fisher. Mr. Gardner taking the place of T. J. Atkins, who is in the West. The officers are: E. G. Boone, president; John Rock, vice president, and F. M. Fisher, secretary and treasurer.

SINKING INTO THE OCEAN.

Barkley, Cal., Feb. 21.—Professor William E. Ritter of the University of California has made the discovery that Santa Catalina Island, the famous pleasure resort, is slowly sinking in to the Pacific Ocean. He estimates that the island is now 270 feet lower than it was formerly.

PROMINENT LOUIS.

VILLIAN DEAD.

Louisville, Ky., Feb. 21.—W. P. Clancy died suddenly last night on a home boat in Florida, where he went recently on account of his health. He resigned three weeks ago as manager of the Louisville Packing Co., on account of his health.

Miss Enlah McKinney, the trained nurse, returned last night from Ogden.

BRAIN FOOD

IS OF LITTLE BENEFIT UNLESS IT IS DIGESTED.

Nearly everyone will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and in fact, everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe, outdoor manual labor can live on a heavy diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk of food eaten.

But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years' experience have proven Stuart's Dyspepsia Tablets to be a safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ, but only on the food eaten. They supply what weak stomachs lack, pepsi diastase, and by stimulating the gastric glands, increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion, which means perfect health.

There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestives; cocaine, morphine and similar drugs have no place in a stomach medicine, and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies.

Ask your druggist for a fifty cent package of Stuart's Dyspepsia Tablets, and after a week's use note the improvement in health, appetite and nervous energy.

THE OTHER ONE.

MR. CHARLES WEILLE COMPLETES THE BOARD OF LIBRARY COMMISSIONERS.

Mayor D. A. Yeiser has now appointed the last of the five library commissioners or trustees and it is Mr. Charles Weille the well known, popular and progressive young clothier. Mr. Weille will make one of the most valuable members of the board for he is a hustler and is thoroughly up to date wherever he is placed.

The other members are: Former Mayor James M. Lang, Rev. G. W. Perryman, Mr. Ed P. Noble and Mr. Henry Savary. The board will meet for organization after the appointments are confirmed by the council.

OLLIE MACK

SENDS ANOTHER GOOD COMPANY TO PADUCAH.

By some mistake the pictorial print-lag for Ollie Mack and James E. Eng-far, a big production of that famous farce, "Finnigan's Ball," did not reach Paducah in time to be displayed on the bill board, consequently the management of The Kentucky decided to call attention to this attraction through the advertising columns of our paper. In this connection we wish to say that we are assured by Manager English that in order to show the people of Paducah how good "Finnigan's Ball" is, he has decided to give a grand bargain matinee at 2 p. m., Saturday, with 25 cents admission for either children or adults to any part of the house. Everywhere "Finnigan's Ball" is playing to \$1 price, but as Manager English realizes that Paducah people will turn out more freely when prices are moderate, he has decided to have the night prices from 25 cents to 75 cents for best seats. Seats will go on sale tomorrow morning for both matinee and night performance Saturday.

"Finnigan's Ball," is the vehicle by which Murray and Mack were carried to the front ranks in the farce comedy field, and there are no better known stars in their line of work to day than Murray and Mack. They have two worthy successors starring in "Finnigan's Ball," Moran and Murphy, who are almost as well known as Murray and Mack. Manager English would like to have the Paducah people see what a good farce comedy is, and feels satisfied that "Finnigan's Ball" will meet with all their critical requirements.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar.

J. C. GILBERT.

THE ELKS.

A NEW FEATURE MAY BE ADDED TO THE BIG CARNEVAL PARADE.

Secretary Nunn of the Elks carnival committee is in receipt of a letter from Deutchmann Brothers of New Orleans, who propose to put on in the big jubilee parade a series of magnificent floats, such as were furnished at the New Orleans Mardi Gras recently. Nothing definite has yet been arranged by the committee.

Last night there was a meeting of the Elks, and Assistant Postmaster John Fisher was initiated.

A THOUSAND DOLLARS

THROWN AWAY.

Mr. W. W. Baker of Plainville, Neb., writes: "My wife had little trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low, and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks to this great remedy it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar, and would ask these afflicted to try it."

J. C. GILBERT.

IS IMPROVING.

Will McClure, who was painfully hurt by Jack Brown near Boaz, Graves county, a night or two ago, is improving. The boys had been to Paducah and got drunk, and McClure had a rib cut in two and a gash cut in his left lung. No arrests were made. Brown claims the cutting was accidental.

A NIGHT ALARM.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell, and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst form of croup. Mrs. P. L. Cordier of Manassas, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar; the first dose gave quick relief, and saved her life." Refuse substitutes.

OOM PAUL MAY COME.

Brussels, Feb. 21.—It is said in Boer circles that if Messrs. Wolmarus and Wessels, after investigating the situation in the United States, advise Mr. Kruger that a tour of the United States would be beneficial to the Boer cause, he will overcome his aversion to a long trip and undertake the journey.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time.

THREE COUPLES ELOPE.

Hopkinsville, Ky., Feb. 21.—Three Pilot Rock couples—J. J. Williams and Miss Marcelle Williams, William Jordan and Miss Alice Williams and Gus Carpenter and Miss Clyde Berry—eloped to Clarksville, and were married.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates and cures quickly. Careful mothers keep it in the house.

MORLEY CASE

AGAIN CONTINUED.

Smithland, Ky., Feb. 21.—Will Morley, who shot little Ira Driskill, was taken before County Judge Evans and the case again continued until the 26th of this month, on account of his victim being unable to be present.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs.

JUDGE LEE TO ACT AS REFEREE

The meeting of the Terrell creditors will be held on the 25th of the month in the office of Referee Hagby, on legal road. The case will be tried before Judge Lee of Mayfield, as Mr. Hagby is attorney for two of the largest creditors of the bankrupts.

ST. LOUIS EXCURSION.

The Illinois Central will run their annual excursion to St. Louis on Thursday, March 20th, by special train, to leave Paducah about 11 a. m. and arriving St. Louis 5:30 p. m. Rate and limit will be announced later. If J. T. Donovan, Agent.

EMBEZZLER DOSS PARDONED.

Nashville, Feb. 21.—Governor McMillin has pardoned W. O. Doss, ex-city treasurer of Nashville, sent up about a year ago for embezzlement, to serve five years. The application for pardon was very strongly recommended.

DEMOCRATIC CAUTION.

Washington, Feb. 21.—A caucus of Democratic Senators will be held on Friday to decide upon a definite line of policy to be pursued on Monday next, in voting upon the Philippine tariff bill, and amendments suggested to it.

—The roof at the Longfellow building has been giving considerable trouble during the winter months, and yesterday owing to the leaks, several rooms had to be dismantled.

Observations

....at Random

A little girl of eight years went to the dentist last week to have a tooth examined. The tooth was one of the child's first and had been pushed nearly out by the second which had been striving to come forth for some time. The tooth could have been extracted with the fingers but the little girl could not muster up courage enough to perform the operation. The dentist upon examination found that there would be very little trouble, and without using the forceps pulled the tooth from the gum. The child did not know it was out until she felt the opening with her tongue and then she set up a yell that could have been heard for blocks. Nothing could comfort her and she was left to have her cry out. She knew that the tooth must hurt, because it was out.

Several nights ago a well known young man of the city startled the household in most peculiar manner. He had been to the theater and had gone to a restaurant and taken lunch with a little spirit on the side. The spirit got his head slightly twisted and when he went home he saw all kinds of things. Upon reaching the paternal domicile, he passed at the gate to steady himself and then he needed the steps. Quietly he opened the door and walked in. The gas was turned low in the hall and upon mounting the stairs he saw what he thought to be a burglar in the end of the hall. Grasping up several umbrellas from the hat rack in the hall he demanded to know "who was there?" This he repeated in additional shouts, and in a instant the household was aroused and out to see the trouble. They found the young man standing in the middle of the hall with two umbrellas in his hand, his hat mashed all out of shape and his shoes half off. There was every evidence that there had been something doing, and the young man was forced to retire in disorder, and without the burglar.

The other night some well known society people asked a lady friend who is prominent in church and charity work, to accompany them to the theater. She declined and smiled: "I never go to the theater."

The crowd thought that maybe she intended it as a roast and concluded to get even. After the show, and after most everybody else was in bed, they went to the opera house, took the small bill boards that set out front, and hauling them to their friend's house, left them, ablaze with their flaring posters, on her front porch. She was certainly as much surprised the next morning to awake and find them there, as were the neighbors who saw starting them in the face as they wended their way to church advertisements of the latest coming attractions. The boards were later carried into the tack yard, and the jokers will probably have the plank tanned out when Manager English finally finds out what has become of his bill boards, and compels them to bring them back.

There are many narrow escapes at railroad crossings that are never heard of. An engineer on a freight train was running between here and Memphis last week when he had a narrow escape from killing a man. He was going at a high rate of speed several miles below Fulton, when just as the crossing was reached, a farmer's team with a driver in the wagon came dashing down the road at full speed. The farmer could not manage the horses but was desperately doing all in his power to turn them from the train. The train was long and the team was within a few feet of it. Fortunately one of the lines broke just in the nick of time, and turned the animals aside as the last car passed. But for this fortunate occurrence the team would have struck the train and the horses and probably the driver killed.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure.

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is the skin gland and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sores we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy without enter through the open glands or pores and quickly infect the blood. The application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antiseptized or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disagreeable skin diseases, but improves your general health, and gives you a clear, healthy skin. S. S. S. contains no harmful or other mineral, but is a purely vegetable remedy and is the best in all blood and skin troubles. Write our physicians for advice. They have made a study of blood and skin diseases, and you can get the best advice without cost. Book on Blood and Skin Diseases free.

THE RAILROADS.

How Care Is Exercised to Locate a Dangerous Break.

Illinois Central Employees Must All Be Vaccinated—Other Railroad Nuts.

Yesterday one of the employees of the I. C. yard department picked up a small piece of iron, the broken piece of a car flange. This was the cue for action on the whole division of the road and telegrams were soon flying to all stations where a freight train could be found. This one little piece of iron could cause the biggest kind of a wreck, and the car from which it came must be found and placed in the shops before any further notice. There was a fresh break, and the car could not have left the yard long. A tractor was sent through the whole yards examining every car wheel to find the break, and at last found it in time to prevent the car from being sent out on the road. This illustrates the care exercised by the company in the protection of its property and in keeping down accidents. Had the car not been found at that time it would probably have been placed in a train and started across the country to cause a wreck in which many lives might have been lost.

Every one in the employ of the Illinois Central railroad or any who are soon to accept positions with this road are required to be vaccinated. This is an order from Chief Surgeon J. E. Owens, General Manager Harahan and Supt. Wallace of the Illinois Central railroad company issued February 18, 1902. The road provides that all employees can be vaccinated by the company physicians for the small sum of 25 cents.

Mr. John McCune, for more than half a dozen years an employee of the local I. C. point shop, has resigned and has gone to Oklahoma to work for a company of that territory. He is one of the most valued employees of the road, and his departure will be regretted by both the company and his many friends. He has been in bad health for the past year, and has made the move for this purpose.

Mr. J. M. Pullen of Louisville, an employee of the carpenter department of the I. C., returned home this morning, after a business trip to the city.

Foreman Axon of the I. C. machine shops here, is again, after a brief spell of illness.

CO. K'S PAY.

IT HAS ABOUT ALL BEEN RECEIVED, LONG AGO.

There has been a little mistake made in the announcement that company K, of the city, which was in the Spanish American war, would receive full pay from the time men were mustered in until mustered out. Company K, through the foresight of Captain Davis, received its money before any other company in the state and in fact is the only company that has received pay for its services. What Captain Davis was attempting to secure was pay for ten days' service, the time the men were mustered in here until they were ordered away. He is doubtful that he will be able to accomplish his desire but he has received some little encouragement. A large sum of money, about \$6,000, has been sent to the state to pay the troops but company K has been paid and is not likely to receive the money again.

SIX ILL.

SEVERAL TEACHERS ARE OUT OF THE SCHOOLS TODAY.

Today there are six teachers out of the public schools and pupils from the high school have been placed in charge of some of the rooms during the illness of the regular teachers.

Mrs. May Riecke, Miss Birdline, Morrison, Wilson, Morgan and Murray are the regular teachers out and all on account of illness. Miss Wilson, however, is the only one seriously ill.

ARE VERY MAD.

People From Near Lovelaceville Want to Bring Suit.

They Claim There Was Never Any Smallpox Out There.

The Lovelaceville people are up in arms against the physicians sent to that section recently to quarantine and vaccinate the residents for the protection of the county from smallpox. Several weeks ago it was reported that from a great deal of smallpox in that section, resulting in a physician being sent to that place to vaccinate and quarantine. The physicians remained there several days attending to the work and when he left caused a sensation by effecting the arrest of one man for refusing to be vaccinated. Nothing was done with the court case and the matter was hushed.

The Lovelaceville people never believed the disease anything more than the "itch" and became very indignant that their trade with the farmer of that section should be crippled for so great a time.

Yesterday two of the prominent citizens of Lovelaceville came to the city and consulted a prominent lawyer relative to bringing a big damage suit against whoever was responsible for sending the doctor there and establishing a strict quarantine. They wanted to bring the suit but as it could not be proven that the disease was not smallpox the attorney advised them not to take any such action.

THE RIVER NEWS.

BY W. W. LAMON (Reporter)

Capt. J. J. Goodwin who is ill at Cairo, is reported better.

The Tennessee leaves at 5 p. m. tomorrow for Tennessee river.

The Pittsburg harbor is frozen over, and the Ohio blocked at many points.

Capt. Bad Mullen, of the Condor, and wife, arrived last night from Joppy.

Capt. E. B. Platt, the tie king, arrived last night from Joppy and returned today.

The Clive went out last evening with a good trip for the Tennessee river country.

Captain Koger says the City of Memphis is all right, and is resting easy, waiting a rise.

The big Cairo wharves were pulled out on the ways at Noun City yesterday and repairs to the amount of \$10,000 will be made.

Captain Sterling McIntyre received orders by long distance telephone this morning to lay the New South up here, awaiting further orders.

The present terrible condition of weather and all previous dates for the month of February, 1902, will ever live in the memory of people in this, as well as other sections, as a record breaker, and for extreme unpleasantness can hardly be any worse.

The Dick Fowler cut loose and turned her head "towards the town at the forks of the road" at 8:30 this morning. Although very heavy ice is running, undisturbed she goes, and comes, as though there was no ice in the river. She is a tramp, and is the jockey on the Ohio river that braves the terrible conditions of the river.

The New South arrived from New Orleans at 10 o'clock this morning, and has gone to the tank here until navigation opens up in the Ohio river. We had the pleasure of meeting several old time friends who were passengers on the New South to the New Orleans Mardi Gras, and they gave not only the trip a big send off, but the officers of the boat, from Captain Sterling McIntyre down to the lower deck, were highly praised by the passengers for their courteous conduct. The Illinois Central railroad took seventy-five or eighty of the passengers from here to their destinations, Louisville, Cincinnati, etc.

The Union Militant, recently organized, and which is a benefit labor society, will hold its first meeting to night, and permanently organize.

IN THE LOCAL COURTS.

The Hack Controversy to Be Settled There at Once.

The Evidence Heard This Morning and One Hackman Fined—Little Done in Circuit Court.

NEWS FROM OTHER TRIBUNALS.

POLICE COURT.

The Palmer hack middle has at last reached the courts. Last evening warrants were served on Messrs. Ed Long and Oakley Doolin, drivers for the Long Oak company, and Harry Anderson, another hackman, charging them with the obstruction of the Palmer reservation and interfering with the company interests and business. Attorneys Moss and Moss are handling the case for the defendants, and Attorney Eugene Graves for the prosecution. The case was begun at the opening of court, and many witnesses were summoned to appear. The lease the Palmer people have is the original C. O. and S. W. lease, given the 1. O. many years ago, as was stated by General Agent Donovan of the Illinois Central, when placed on the witness stand. The only question to be settled is to the right the company has to assign this lease, as opinions differ as to platform space being public property.

Judge Sanders, after hearing all the testimony, stated that the same case had been before him several years ago, when Terrell claimed to have secured the exclusive space in the depot platform. A fine was imposed and the case appealed to the circuit court, but has never been settled. "All that I can do, and what I think is right, is to fine the defendant, and let the latter appeal the case to the circuit court, the proper place to try the case. The question to be settled is whether or not the company has a right to lease the property. This can not be settled in my court, and I must fine the defendant \$25 and costs and let him appeal the case. The judgment is suspended until the case is settled."

The cases against the latter two drivers were continued until the action in the circuit court is taken, and the case settled as to the rights of the company to lease the ground.

Last night Lena Jones, an 18-year-old girl, was arrested in Mechanicsburg near the Decker mill in a tent, on a highway charge. The woman came here on a shanty boat with a man named Isaac Humphries, and lived in Dogtown for several weeks, later moving to Mechanicsburg and into a tent, after having sold the boat. It is alleged that she and Frank Boatwright of the city were last week married, and since that time it has been reported that she has a husband elsewhere, and the arrest followed. Humphries, who has been posing as the girl's guardian, was also arrested for giving his consent as guardian to the Boatwright marriage. The case will be heard in the police court Monday morning, having been continued from today court.

The R. J. Settle case will be tried before Judge Sanders tomorrow. Mr. Settle, bookkeeper at the Bonbrant grocery house, is the regular tobacco auctioneer employed by the local tobacco men, who give a license for him every year. In addition to this, an attempt has been made to force him to pay a license himself, which he has refused to do, and the case has come to a test.

Heizer Stovel was fined \$1 and costs for drink and disorderly.

Roy Van Dyke was arraigned on a breach of the peace case, which was continued until Monday.

Alberta Goldsmith and Marrell Bollitt were fined \$1 and costs each for a breach of the peace.

Richard Clark and Cley Dixon and Renzo Wilson and Birdie McClure, all colored, were fined \$20 and costs for immorality.

CIRCUIT COURT.

There was little business in circuit court today. A judgment for the plaintiff was filed in the case of Charlotte Connor against Mike Lemmon.

In the case of Mike Beaman against Sylvia McClure a transfer of bid was made and the commissioner made a deed to Sam McClure and the case was stricken from the docket.

In the case of L. E. Sone, administrator, against Leslie Sone heirs, the commissioner made a deed to B. H. Scott, and the case was stricken.

In the case of John Holke against the U. S. Benevolent society, the affidavit of J. G. Miller was filed in support of the motion for a new trial.

The cases of Lang against Allen and Allen against Moss were consolidated and set for Tuesday.

COUNTY COURT.

Mr. Chas. Allcott has qualified as a notary public.

The estate of the late George A. Womble was ordered into the hands of the public administrator, by motion of the widow, Maude Womble.

DEEDS.

41p Husbands, M. O., deeds to Sam McClure, for \$350, property on Washington street, near Tent.

41p Husbands, M. O., deeds to B. H. Scott, for \$350, property on Fifth street, in the Trimble addition to the city.

AT "THE KENTUCKY."

One of the best plays seen this season at "The Kentucky" was "The Minister's Son," with Mr. W. B. Patton, a well known comedian, in the title role. It was presented last night to a small but well pleased audience, and those who witnessed it were unparagoned in their praise. Mr. Patton is a droll, grotesque character, very much on the order of Sol Smith Russell and Tim Murphy, and enjoys a peculiar field of art all to himself. The play is pretty much on the order of all others with a hero, a heroine, villain and other conventional characters. The admirable acting of Mr. Patton and his company, however, place them way above the average, and few more artistic interpretations have been noted than that of Mr. William Macaulay as "Wesley Coles" the villain. Mr. E. M. Le Roy as the minister was good; Miss Louise Foster stood as "Mollie" was fine and Miss Annie Allis as "Rose Ray" also did very fine acting. Ida Florence Campbell as "Mrs. Ray" and "Peggy Owen," did good character work, especially in the latter. In fact, the work of every member of the company, most of whom donned up on the cast and played two or more parts, was of the highest class. It is regretted that Paducah theatre goes did not turn out better to avail themselves of the first opportunity to see Mr. Patton who is one of the best known actors on the American stage and has one of the best costumes and most interesting plays on the road.

"How many boats have been named Will S. Hays, and what became of the last one?" asks Reader. [There have been three steamboats named Will S. Hays. The last one was about the size of the City of Louisville, over 300 feet, was side wheel, had the finest cabin in this country, was the fastest boat of her power that ever ran. She was the first boat to use electricity, and came out in '84. She was built at Pittsburgh, and was out on the river for and demolished on the city wharf at St. Louis. She was owned by Captain Sam S. Brown and Captain Jim Hays.]

THE WEATHER.

Snow and Sleet Did Little Damage Here.

Today Work is Resumed on Telephones—Rain or Snow Predicted.

The sleet storm of yesterday did little damage, as it was generally light. Judging from the way it began, Paducah and several near by cities would be in the same condition as a few weeks ago. Wickliffe reports little damage and Union City was damaged only slightly. Paducah suffered no damage at all except in delay in the work on the telephone system, and the men are all back on duty today.

The Postal and Western Union telegraph companies report no damage and all wires are working today.

The weather prediction for Kentucky for tonight and tomorrow are: Rain or probably snow tonight and tomorrow with a stunning temperature.

Last night the lowest the mercury reached was 26 and today people are going about with their overcoats unbuttoned.

MYSTERIOUS CASE.

MAN AND SUPPOSED WOMAN STOP AT LOWES CROSS ROADS.

A merchant from Lowes, Graves county, was in the city today, and reported to Marketmaster Joe Woods that two persons, supposed to be a man and woman, called at his store, arched him and bought food for which they refused to pay, claiming they had no money. The supposed woman did not speak, and it is believed was a man disguised as a woman.

They had with them a heavy carpet sack, which they left when they departed, but before the door was closed and locked, the man came back greatly excited and seized it, making away with it in the darkness.

The couple were inquiring the way to Arlington, and it is believed were thieves, who had probably burglarized some house.

BARBER'S COURT.

Justice Barber has been busy today hearing the forcible detainer case of Joe Friedman and Max Nahn against the Hogister Newspaper Co. There was little evidence to be heard, and the agreement was gone into immediately. The case is being tried at the office of the newspaper company, and the attorneys are having a great time in the case. The plaintiffs claim that the defendants have violated the conditions of the lease.

WILL FIGHT IT.

KENTUCKY LIFE INSURANCE AGENTS DO NOT LIKE THE REVENUE BILL.

The life insurance agents of the state, at a meeting held in Louisville yesterday, decided to fight the provision of the revenue law introduced at Frankfort taxing policies that have a surer cash value. It will be a great blow to the insurance business in Kentucky should it become a law, and a hard fight will be made against it.

BAD WEATHER

CUTS SHORT MR. S. T. PAYNE'S TRIP WEST.

Mr. S. T. Payne, who left for the west to inspect lands to be bought by the Paducah company that is to bore for oil, returned last night. On account of the severe weather, he was unable to get any farther than Omaha, Neb.

He will go west again as soon as better weather arrives. The company still has its option.

WEDDED AT ALAMO.

Fulton, Ky., Feb. 21.—Dr. George F. Winks, of Water Valley, Ky., and Miss Eva Johnson, of Alamo, Tenn., were married at the home of the bride in Alamo. The marriage was quite a surprise to everyone, even the close relatives of each.

An Ex-Congressman's Wit.

John Allen, formerly the wit of the House, and now a member of the St. Louis Exposition commission, entered the hall of the House on a recent Tuesday. He was dressed in the tip-top of fashion. Together with Marcus Aurelius Smith, delegate from Arizona, Allen surveyed the assembled congressmen. "Rather a mixed lot," was Smith's comment. "Yes," assented Allen. "And to think," he added reflectively, "that for many years I associated with these people on terms of equality!"—Washington Post.
